VICTORIA C

FALCON YACHTS 102 (2025)

DESCRIPTION

The Falcon 102 M/Y VICTORIA C represents a unique opportunity to acquire an iconic Italian-built motor yacht, combining timeless styling, generous volumes and excellent cruising comfort.

An exceptional story lies behind this yacht: she is the last Falcon 102 hull ever built, originally left unfinished at approximately 50% of construction. In 2021, a passionate Falcon 102 enthusiast acquired the project with the vision of bringing her to completion. Working closely with a Shipyard in Viareggio, he undertook the ambitious task of completing the yacht to his own standards.
The project was completed in 2025, when VICTORIA C was registered for the first time. Her technical specification includes two brand-new MAN V12 engines delivering 2,000 HP each, installed in 2023, together with entirely new navigation electronics and electrical systems.

The result is a distinctive yacht that combines the proven design and spacious layout of the Falcon 102 with newly installed machinery and modern onboard systems. A rare opportunity to own a yacht with a remarkable history and a truly passionate ownership story.
