

DESCRIPTION

This Princess V50 is a fantastic representation of Princess' forward-thinking design and engineering. Like all Princess yachts, the V50 is designed for entertaining, featuring an exceptional external cockpit which offers the ideal al-fresco living space, with an extended canopy providing protection and shade. The garage under the sundeck can easily store the tender and water toys, while the hydraulic bathing platform facilitates access to the sea. The open feel of this new yacht allows guests to move around with ease, creating a comfortable and completely balanced yachting experience.

Below deck there is a well equipped galley open to an elegant salon with sofa and table. Furthermore, she features two beautifully lit and elegant staterooms for up to four guests. A full-beam master cabin, amidships making use of all the space, with private bathroom. A second cabin with a double bed is located forward. The forward en-suite has additional access to the saloon for day access too.

Rare on the market, this Princess V50 Open is equipped with Seakeeper gyroscopic stabilizer and Volvo DPS dynamic positioning system.

This boat is designed to provide exceptional comfort and stability, even in the harshest conditions.

With very few engine hours, only 195, it is in excellent condition and ready to sail.
