

## DESCRIPTION

The Riva Aquariva Gucci Edition is the epitome of luxury, where the timeless craftsmanship of Riva meets the sophisticated, high-fashion elegance of Gucci. Unveiled in 2009, this exclusive special edition of the iconic Riva Aquariva seamlessly merges the world of high-end yachting with the world of haute couture, creating a boat that not only performs at the highest level but also redefines elegance on the water.

A true masterpiece of design, the Aquariva Gucci Edition features a glossy white fiberglass hull uniquely painted in Gucci's signature shade, while Riva's renowned mahogany accents, with their impeccable varnish finish (twenty coats in total), create a flawless contrast. The boat's green and red Gucci stripe, a hallmark of the fashion house, elegantly adorns the hull, emphasizing her streamlined, sophisticated silhouette. The green crystal windshield is a striking, one-of-a-kind detail, elevating the boat's design to an even higher level of luxury.

Step aboard, and you're welcomed into a world where every detail reflects the craftsmanship and style synonymous with both Riva and Gucci. The boat's cockpit and walking decks are enveloped in Riva's masterly varnished mahogany, creating an inviting and atmosphere. The Guccissima print, decorates the waterproof fabric that covers the seats and sunbath on the bow, while the luxurious bed upholstery is crafted from Gucci white cotton, offering unparalleled comfort and refinement.

Inside, the boat's luxurious cabin features high-end materials such as leather, suede, and polished wood, all elegantly designed to incorporate Gucci's signature motifs. Each detail, from the upholstery to the dashboard, has been carefully curated to bring the fashion house's luxury to life on the water. The Gucci logo adorns the hull and subtly enhances the vessel's presence, solidifying the boat as a true symbol of exclusivity and style.

In addition to her striking aesthetics, the Riva Aquariva Gucci Edition offers the same exceptional performance that Riva is renowned for. Powered by twin 380 hp Yanmar engines, this beauty reaches impressive top speed of 41 knots, ensuring a thrilling and dynamic yachting experience. The collaboration between Riva's legendary engineering and Gucci's unparalleled design results in a yacht that is as much a high-performance vessel as she is a work of art.
