

DESCRIPTION

This Couach's Mediterranean with a flybridge has an overall length of 20.80 metres and she has been designed to deliver seaworthiness and practicality in equal measure to flexibility and conviviality. Created with the luxurious finish and chic French design for which Couach's larger yachts are renowned, the 1900 has a low and sporty, tapered profile that assures a timeless style.

On the main deck, large windows ensure that the open layout of the interior feels spacious and light, enhanced by the cut-outs of the adjacent exterior bulwarks of the hull. The interior space of the main deck incorporates a helm and large dining-saloon area, including a U-shaped sofa and further chairs at a table across from the second sofa (convertible into a double bed) and concealed flatscreen television to the starboard. Moving aft, the large, open-plan family style galley is conveniently located between the two dining spaces, both exterior and interior, ensuring convenient flow for guests and crew. The "roof" window between the galley and the cockpit to the aft can be fully opened to allow easy, convivial communication between the two spaces during meal preparation.

With direct access to the flybridge, the expansive cockpit is comparable to that of a much larger yacht. Without any visual impairment, the panoramic views and large dining space will be a popular space for any owner and their guests. Below the cockpit, a large swimming platform will be a hive of activity for those who enjoy spending time in and by the water.

The yacht's flybridge is a convivial space that will be popular at anchor as well as underway. It has been designed to incorporate an outdoor galley space, with a large, convertible U-shaped sofa around a table, and a large sun pad for lounging.

On the lower deck, three exquisitely designed cabins offer luxurious accommodation for up to six guests. The expansive full-beam ensuite master cabin is a haven of elegance, features double wardrobes and a bathroom, offers abundance of space and comfort. The VIP double cabin, equally impressive, includes double wardrobes and an ensuite bathroom., while third cabin is equipped with twin beds, a wardrobe and bathroom ensuring a lavish experience for guests.

Designed to be operated by a crew of up to two professionals, with easy maintenance and operation never far from the designers' minds, there is ample storage for marine equipment and accommodation for the crew below the aft deck.

Powered by twin Volvo 900hp engines, the Couach Mediterranean 1900 can reach a top speed of 26 knots. The yacht's high fuel capacity means owners can comfortably cruise large portions of the Mediterranean in comfort and style.

Experience the ultimate in luxury yachting with the Couach Mediterranean 1900, where spacious interiors, exquisite comfort, and unparalleled elegance come together to create an unforgettable maritime adventure.
