

DESCRIPTION

Fast and fabulous, the Pershing 70 combines leading-edge technology with hallmark performance and luxury.

Teak-clad side decks are wide enough for normal passage fore and aft, and are protected by substantial bulwarks topped with stainless-steel safety rails forward. A Williams 325 Turbojet tender stows easily in the garage.

Depending on sea state and your cruising schedule, the deep-V hull's sweet spot for fuel efficiency falls between 35 and 43 knots. With the Pershing 70's sliding roof open, guests in the forward area of the salon enjoy abundant natural light and ventilation. The integral wings make the cockpit far roomier and allow for a large table and chairs for alfresco meals. Sun worshippers will enjoy the large pad farther aft, while an electric sunshade stows in the after edge of the rooftop.
