

DESCRIPTION

This stunning Sunseeker Portofino 48 is an impeccably maintained representation of the highly sought-after IPS600-powered model. This exquisite vessel is designed for the Mediterranean lifestyle, featuring two luxurious ensuite cabins, a comfortable saloon, and a generously sized cockpit with large sun-pads perfect for entertaining or simply basking in the sun. The addition of a hydraulic platform and garage further elevates this model's appeal and functionality.

Inside, the sumptuous interior is adorned with Satin Black American Walnut and stylish cream carpets, creating an atmosphere of refined elegance. The striking blue hull adds a sophisticated touch while perfectly complementing the boat's dynamic performance characteristics.

One of the standout features of this model is the full-beam owner's suite located at the rear, complete with expansive windows that flood the space with natural light. At the front, a clever design makes the VIP suite versatile; the double bed cleverly swings apart to transform into twin single berths. At the heart of the vessel, the central saloon serves as a welcoming focal point, seamlessly connecting the various living spaces and encapsulating the luxury living experience onboard, also given by the well equipped galley.
