

DESCRIPTION

Experience unparalleled comfort and luxury aboard the magnificent 29.6m motor yacht ALTVS, meticulously crafted by the renowned Amer shipyard. Accommodating up to 10 guests across 5 opulent cabins, this yacht redefines elegance on the water, featuring interior design by the esteemed Stefano Tini.

The most distinctive and captivating element of this space is the presence of expansive windows that allow an abundance of natural light to flood in, simultaneously unveiling breathtaking views of the outside. This illumination not only brightens but creates a magical play of light and shadow that dynamically shifts along the elegant curves of the furnishings.

With a strong focus on usability, the flybridge stretches from stern to bow like a genuine "promenade sur mer," providing easy access to the forward sunbathing area. The flybridge, a true jewel of luxury, is equipped with a large hot tub and a spacious rear sunbathing area that can be effortlessly converted into a cozy informal lounge. An expansive dining table and bar area, elegantly shaded by the hardtop with a retractable roof, offer the utmost comfort. Further sunbathing areas and seating options are strategically placed both on the aft deck and at the bow to ensure moments of pure relaxation and conviviality.

Launched in 2020, ALTVS is your ultimate haven for relaxation and indulgence. Each cabin is thoughtfully designed to maximize space and comfort, ensuring a serene retreat after a day of adventure. The luxurious full beam master suite, strategically located on the main deck, offers stunning views and an intimate atmosphere, while the two double cabins and versatile twin/double configurations provide flexible accommodations for all guests.

To enhance your luxury charter experience, ALTVS comes complete with a dedicated crew of 5, who are committed to delivering impeccable service and attention to detail. This allows you to sit back and enjoy the lavish surroundings without any worry.

Indulge your senses with countless amenities, including a deck jacuzzi that invites you to soak in the breathtaking scenery while sipping your favorite beverage. Stay seamlessly connected with onboard Wi-Fi, and revel in the perfect climate thanks to comprehensive air conditioning throughout.

Built with a lightweight GRP hull and superstructure, ALTVS not only exudes elegance but also delivers impressive performance. Powered by four Volvo Penta IPS engines, she glides effortlessly through the water, cruising at 23 knots and reaching exhilarating speeds of up to 30 knots.

For the adventurous soul, ALTVS is equipped with an impressive collection of water toys and accessories, guaranteeing endless entertainment. Dive into the crystal-clear waters with two F5 SEABOBs, paddle through the waves on inflatable toys or paddleboards, and explore vibrant marine life with the provided snorkeling gear. Plus, a convenient Aermarine Tender ensures easy transfers from shore to yacht.
