

## DESCRIPTION

The Sanlorenzo SD112, built in 2018 and designed by Francesco Paszkowski, is a stunning 34.10-meter superyacht that exemplifies luxury, refinement, and exceptional craftsmanship. With expansive living spaces and sophisticated amenities, this yacht is designed to offer unparalleled comfort and privacy for up to 11 guests in 5 en-suite staterooms.

The main deck features a spacious, light-filled lounge with plush seating, leading seamlessly to the formal dining area, which comfortably seats up to eight guests. The Master cabin, located forward, offers a serene retreat with panoramic views and a luxurious marble en-suite. The lower deck houses two VIP cabins with double beds and two guest cabins, one with a pullman bed, all with opulent marble bathrooms.

The yacht's design emphasizes privacy, with a layout that separates the crew quarters from the guest cabins via a dedicated staircase. The interior showcases a neutral color palette, luxurious materials such as parquet flooring, marble, and bespoke upholstery, blending contemporary elegance with maritime tradition.

On the exterior, the swim platform provides easy water access, and the main deck aft offers comfortable seating for relaxed gatherings. The upper deck aft features a plush sofa, alfresco dining area, and seamless connection to the sky lounge. The flybridge, with 360-degree views, sun loungers, a hidden Jacuzzi, and a wet bar, provides a perfect setting for relaxation and entertainment.

The Sanlorenzo SD112 is a true masterpiece, combining luxurious interiors, expansive outdoor spaces, and meticulous craftsmanship, setting a new standard in comfort, sophistication, and privacy on the water.
