PRINCESS YACHTS Y85 (2020)

IDEA YACHTING

DESCRIPTION

The contemporary design of the Princess Y85 is an elegant retreat dedicated to wellness and relaxation, which contains welcoming interior spaces. Elegant, organic shapes populate every area of the yacht, demonstrating the unique skills of our craftsmen.

The yacht offers a large flybridge with an alfresco dining serviced by a wet bar. The bow lounge is the perfect spot to relax with guests in increased privacy. The cockpit is located just above the swim platform, ideal to connect the owner to the water.
The massive main deck offers huge entertainment areas from the large aft cockpit to the large circular saloon dining area, capable of accommodating eight guests. The flexible galley layout ensures maximum privacy for guests, while the crew can move discreetly around the yacht.

Below, four cabins are flooded with light from the sweeping full length hull glazing, showcasing the luxurious materials and fixtures selected by the Princess Design Studio. The master suite is a full beam amidship for ample comfort. The lower deck also accommodates the remaining three cozy suites, including a VIP and two guests.

Reaching a top speed of 31 knots powered by twin MAN V12 engines, she is one of the fastest yachts in the Princess line up. The tender is carried on the swim platform, ideal to free up some space inside the yacht, offering a stunning volume.
