

AZIMUT 50 FLYBRIDGE (2005) I D E A YACHTING

DESCRIPTION

The Azimut 50 Fly is a masterpiece of elegance and comfort, meticulously designed for those who aspire to experience the sea with style and sophistication. This luxury yacht stands out for her classic layout, which features three impeccably appointed cabins: a VIP cabin with a queen-sized bed, a spacious and luminous full-beam owner's cabin at the bow and a guest cabin with twin bunk beds on the port side, ideal for accommodating friends or family.

Every space on board is conceived to ensure the utmost comfort, adorned with high-quality finishes and meticulously curated details. The owner's cabin, in particular, serves as a sanctuary of tranquility, while the VIP cabin offers a warm and refined welcome. The presence of a crew cabin, accessible from the aft cockpit and equipped with independent facilities, adds an additional layer of convenience to your maritime experience.

The vessel has undergone a diligent maintenance process, with the transmission, bearings, and through-hulls thoroughly inspected and fine-tuned to guarantee impeccable performance. The hull, recently restored to her pristine condition, shines with an impeccable appearance, reflecting the care and attention devoted to this yacht.

In terms of external design, the table in the cockpit has been replaced with a new one, crafted with meticulous attention to teak detail, while the flybridge table has also been renewed to provide a perfect area for outdoor dining or moments of relaxation. The new exterior upholstery and the refreshed interior paneling lend a touch of freshness and modernity, transforming every corner of the yacht into a welcoming and sophisticated environment.

Furthermore, a new satellite antenna has been installed, ensuring connectivity and entertainment even in open waters, allowing you to remain in touch with the world at all times. Thus, the Azimut 50 Fly represents not merely a vessel, but a true lifestyle, where comfort and luxury harmoniously blend with the beauty of the sea.
