

LYNX

LEOPARD 34M (2007/Ref.2022)

I D E A
YACHTING

DESCRIPTION

Lynx is a remarkable 34.1m Leopard motor yacht that seamlessly combines performance, luxury, and contemporary design. Designed by Andrea Bacigalupo and featuring an exquisite interior by Reymond Langton Design, Lynx is a standout from the renowned Leopard 34m series. Launched in 2007 and extensively refitted in 2022, the yacht includes significant upgrades, particularly to its advanced entertainment system. Constructed from top-quality GRP and meticulously maintained, Lynx is in immaculate condition and ready for new adventures.

With a sleek, sporty profile, Lynx is designed for high-performance yachting, achieving a cruising speed of 35 knots and a top speed of 42 knots, powered by three MTU 16v 2,000 M91 engines. Following a thorough five-year B.V. special survey in 2022, it has received impressive enhancements, including a state-of-the-art Humphree stabilization system and extensive servicing of its KAMEWA propulsion system. Compliant with MCA regulations and used exclusively for private leisure, Lynx offers an exceptional opportunity for luxurious cruising.

Accommodating up to nine guests, Lynx features four elegantly appointed cabins: a full-beam master suite, a versatile VIP double, a third double cabin, and a twin room with an additional pullman bed for flexibility. The interior, adorned in a neutral palette, exudes understated elegance, with the main saloon serving as a bright and inviting centerpiece, complemented by a cozy TV room.

The exterior boasts generous spaces, including a sunbathing area on the foredeck, an aft cockpit for alfresco dining, and a hydraulic swim platform, all enhancing the yachting experience. With its extensive upgrades and pristine condition, Lynx is ready for its next chapter, offering a unique blend of elegance and high-octane performance. Don't miss this opportunity to own an exceptional yacht.
