HATTERAS 53 CONVERTIBLE (2009)

I D E A
YACHTING

DESCRIPTION

This Hatteras 53 Convertible represents a rare opportunity to acquire a classic American sportfisher that has benefited from a comprehensive and meticulous refit completed in 2009, bringing the yacht to modern standards while preserving the legendary Hatteras build quality.

The refit was truly all-encompassing and included the installation of new engines, a completely renewed electrical system, and a full repaint of both hull and superstructure, resulting in a fresh, timeless exterior profile. Internally, the yacht was transformed with a new layout, a complete redesign of the interior joinery, and updated finishes throughout, creating a contemporary, functional, and welcoming onboard environment.

All major onboard systems were replaced or upgraded during the refit, including electronic navigation instrumentation, battery systems, electrical panels, and a hydraulic generator set. The refit also included the replacement of all windows, further enhancing comfort, reliability, and aesthetics.

In essence, everything onboard dates from 2009, with the sole exception of the original hull and deck structure, whose solid resin construction remains a testament to Hatteras' renowned durability and offshore capability.

This vessel offers the perfect combination of classic sportfishing pedigree, modernized systems, and proven seaworthiness, making her an excellent choice for an owner seeking a capable and extensively updated convertible yacht.

Further details and technical specifications available upon request.
