

DESCRIPTION

The 2021 Solaris Power 48 Open combines distinctive Italian design with exceptional seaworthiness, comfort and efficiency. The result is a remarkably versatile yacht, offering excellent stability underway and at anchor, safe handling in unfavourable weather, low fuel consumption and reduced emissions.

Powered by twin Volvo Penta IPS D6 440 HP engines with approximately 880 hours, she benefits from joystick manoeuvrability, low noise and minimal vibration. Her specification includes opening side bulwarks, Besenzoni passerelle/bathing ladder, generous storage area, Fusion audio system, opening tender garage and comprehensive Garmin electronics with dual monitors.

In July 2026, she underwent an extensive programme of works, including an enlarged hardtop upgraded to the design of the Solaris Power 52, complete renewal of interior and exterior upholstery, new sunshade poles and canvas, full polishing, hardtop and outdoor galley repainting, additional cockpit and underwater lighting, detailed engine maintenance, new batteries and black windscreen film. The interior was also redesigned in a two-cabin, one-head configuration, with a spacious dinette and sofa. With a wide tender garage and a spacious, well-ventilated engine room, she is ready to enjoy.
