MOCHI CRAFT DOLPHIN 54 SUNTOP (2008)

I D E A
YACHTING

DESCRIPTION

The Mochi Dolphin 54 is a distinctive example of Italian craftsmanship, combining elegant lines, generous living spaces and excellent cruising comfort. Designed for relaxed and enjoyable time on the water, she features a refined interior and spacious outdoor areas, making her ideal for both family cruising and entertaining guests.

Her accommodation offers comfortable and well-appointed living spaces, while the bright interior reflects the timeless style and quality associated with Mochi Craft. The spacious cockpit and generous sunbathing areas provide excellent outdoor comfort. Meticulously maintained and recently upgraded, she benefits from an extensive programme of works. In 2026, the hull was repainted, the superstructure polished and the teak decking renewed. Both turbochargers were replaced, with the starboard unit renewed in 2026 and the port unit in 2025. The MAN engines underwent a complete overhaul in 2026, together with a comprehensive air-conditioning system overhaul and generator service.

Further recent works include four new service batteries, a new air-conditioning compressor, generator starter motor and service water pump, as well as an electronics overhaul and renewal of the Safety Certificate. A well-maintained and extensively upgraded Mochi Dolphin 54, ready to enjoy the season.
