ISABEL

CMM YACHTING SOLARE 46 (2006)

DESCRIPTION

M/Y ISABEL is an elegant CMM Yachting Solare 46, combining timeless Mediterranean styling, solid construction and excellent seaworthiness. Built in 2005, this 14.25-metre yacht offers generous outdoor spaces, a spacious cockpit and a comfortable three-cabin layout, making her ideal for both coastal cruising and extended stays on board.

She underwent a major refit during the winter of 2020/2021 and has since benefited from continuous care and significant upgrades. Her main electrical system and navigation equipment were renewed in 2021, while the aft platform was rebuilt in 2022. More recent works include a new QUICK windlass and anchor in 2024, renewed stainless-steel exhaust manifolds in 2025, and updated exterior covers and flybridge upholstery.
Powered by twin MAN engines with approximately 785 hours, ISABEL is exceptionally well equipped, featuring a MASE generator, air conditioning, watermaker, solar panels and Raymarine navigation electronics.

Presented in excellent overall condition, with equipment regularly serviced and maintenance up to date, she is ready to cruise and represents an attractive opportunity.
